

I Hope in You

You said follow me and I answered
Believing in your love and your care
Resolved to follow on till life ended
Leaning on your promise to be there.

At times I feel life's sorrows are too heavy.
Sometimes despair and doubts cloud my way,
But still I'll follow on through the darkness
Knowing that Your love has led the way.

This I believe, that love is given to us
To light our way so we can be a part
Of the hope God has for his children
And love to be shared is where we start.

Help me to be true to my promise
Give me faith to trust and strength to stand
Thankful for the hope of that morning
When in God's light we all walk hand in hand.

Refrain:

*When the night is long, I hope in you
When I can't find a song, I hope in you
As I see that love endures and my faith in you matures
I can trust in your care, in your promise to be there.
I can trust and wait and hope in you.*
