

Made For Love

We want to love like you do
We want to love like you do
Down this road we'll walk together
Trusting you through stormy weather
We want to love like you do

We are loved and made for love
We are loved and made for love
We are loved and made for love
We're made for love
We're made for love

In love you're making all things new
In love you're making all things new
Brokenness is all around us
But we're clinging to the promise that
In love you're making all things new

We rest in love, it comes from you
We rest in love, it comes from you
Watching, waiting, hoping, praying
Grateful for what you're creating
We rest in love, it comes from you
