

We will Overcome
By Grace Delp

Verse one

We will overcome this
We will overcome this
We will break down fear
We'll make it disappear
We will overcome
X2

Chorus

We'll stop fighting
We'll start learning
From each other
You are my brother
Holding hands
Making amends
You are the same as me
You are the same as me

Verse two

We haven't reached the end yet
We haven't reached the end, but
Time is medicine
And the right rights will win
Right now
We haven't reached the end yet
We haven't reached the end, but
It is within reach
And we will break this leach of suffering
And we will reach the end
